

The Original Cakerie

“There is no question that the level of innovation here in London will continue to grow”

– Suzanne Pottinger, Vice President, Employee Experience,
The Original Cakerie

THE ORIGINAL
cakerie

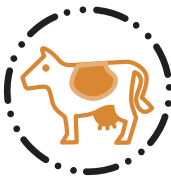

The Original Cakerie has found sweet success in the agricultural heartland of Southwestern Ontario and London’s proximity to raw materials. The company is a leading manufacturer of premium frozen desserts for retail and foodservice customers across North America. The proximity to raw materials was a key factor in deciding to buy land and build a \$50 million, 125,000 sq. ft. facility in London. **The LEDC worked with the Original Cakerie in securing a 25 acre site in London’s Innovation Park - a premier industrial site with Class A services including underground hydro with dual feeds, as well as easy access to a fresh water supply from Lake Erie and Lake Huron.**

With world-class infrastructure, a talented workforce and established supply chains, London is proud to be home to over 60 leading food and beverage companies.
