BE PART OF SOMETHING GREAT ... JOIN OUR TEAM!

Company Information

Scholar's Choice is the largest retailer of educational toys and teaching materials for parents, teachers, early childhood educators, schools and childcare centres in Canada. **Our vision** is to give every child a reason to love learning so they can achieve their hopes and dreams.

You can see that we have a big vision and **our core values** that support us in our day to day actions as part of our company culture:

- Commitment to Excellence
- Respectful of Everyone
- Integrity
- Passionate
- Humble & Gracious

We are currently seeking a dynamic and creative Web Developer / Magento Developer to join our team at our head office in London, ON. If you feel this is something that you want to be a part of, go ahead and apply for this position.

Summary

The Web Applications Developer will be responsible for the development and sustainment of web applications within the scope of Scholar's Choice Online. Applications include but are not limited to Magento Ecommerce, EDI, POS & Custom Solutions.

The Web Developer will also work directly with project stakeholders to ensure web-based applications meet business and user requirements by coding new web applications, as well as supporting current solutions.

Job duties and Responsibilities

Include, but are not limited to, the following:

- Analyze and implement requirements.
- Maintain existing PHP code.
- Coordinate builds and releases.
- Plan and execute migrations.
- Optimize MySQL queries.
- Troubleshoot issues and bugs.

- Develop front-end components using layout XML, blocks, and templates.
- Develop and extend Magento extensions.
- Develop custom PHP solutions.
- Assist in improving the usability, usefulness and functionality systems.
- Develop and maintain documentation.

Qualifications and Skills

- Bachelor's Degree, Diploma or equivalent combination of education and experience.
- Minimum 4 years of software development experience
- Proficient and recent experience with:
- PHP, JavaScript, bootstrap frameworks.
- Scripting languages.
- MySQL, MSSQL and general database administration and design.
- HTML/HTML5, CSS, and style sheet extension languages.
- Software unit testing and QA strategies.
- Software version control.
- Container environments.
- LAMP stack configuration.
- Strong foundational knowledge of computing.
- Strong creative and analytical thinking.
- Strong troubleshooting abilities.
- Strong written and verbal communication skills (English).
- Ability to multi-task and prioritize in a fast-paced, global organization.
- Superior organizational skills, attention to detail, and ability to prioritize and manage multiple tasks

What to Expect at Scholar's Choice?

- Our company culture is second to none. When we say we are a family-oriented company, we mean it. We consider everyone who works with us to be family and they are treated that way!
- Competitive compensation and benefits package
- Amazing staff discount
- Free parking and free coffee
- Fun team building activities and organized events

How to apply?

If you are interested in becoming a part of our amazing team, please submit your cover letter and resume to humanresources@scholarschoice.ca

We are grateful to all who have shown a desire to join our family. However, only those who are being considered for the position will be contacted. We hope to speak with you soon!
