September 8th Update

- Canada Emergency Commercial Rent Assistance (CECRA) for small businesses will be **extended by one month** to help eligible small businesses **pay rent for September**.

Revision Update: September 22nd, 2020 @
4:30PM

- All provinces and territories continue to participate in this initiative and collaborate with the federal government to provide rent supports to those small businesses most in need.
- Current CECRA application deadlines will also be extended to accommodate this extension.
- As of September 7, 2020, **over 106,000 small business tenants** have been supported, **representing 994,000 employees**, for a total of **over \$1.32 billion in rent support**.
- For more details, please visit:
[COVID-19: CECRA for small businesses](#)

June 30th Update

- To simplify the application process for all applicants, the government is removing the requirement to claw-back insurance proceeds and provincial rent supports from the CECRA forgivable loan amount for both existing and new applicants.
 - i. Existing applicants who are affected will be notified and will have any previously clawed-back amounts restored to their forgivable loan.
- Those who qualified for the CECRA based on existing program parameters will be able to apply soon for the additional one month based on having a 70% revenue decline for April, May and June, i.e., without reassessing whether they continue to have a 70% revenue decline in July.
 - i. Participation in the one-month extension is voluntary.
 - ii. Only those tenants approved in the April, May and June application are eligible for the July extension.
- Existing applicants **need to reapply** for the month of July and have until **September 14, 2020**.
- New applicants have the choice of applying for the three-month initial period or four months, but need to do so by the original date of **August 31, 2020**.
- Applications will continue to be processed through [the Canada Mortgage and Housing Corporation website](#) (CMHC)

Revision Update: September 22nd, 2020 @
4:30PM

Details

- The Ontario government is partnering with the federal government to provide urgent relief for small businesses and landlords affected by the COVID-19 outbreak.
- To find out how much rent support an entity may be eligible for, please visit Ontario.ca/rentassistance.
- Application documents and updated criteria for the Emergency Commercial Rent Assistance program are now available, and that the program will be opened for applications beginning on **May 25th**.
 - i. Applications will be accepted through the Canada Mortgage and Housing Corporation (CMHC) [website](#)
 - ii. The CECRA for small businesses will be available until **August 31, 2020**
- The CECRA for small businesses has been developed to **share the cost of rent** between small business tenants, landlords and the governments of Ontario and Canada.
- Small business landlords would be asked to **forgive at least 25 per cent** of the tenant's total rent, **tenants would be asked to pay up to 25 per cent of rent** and the **provincial and federal government would share the cost of the remaining 50 per cent**.
- The province is committing **\$241 million** through the new **Canada Emergency Commercial Rent Assistance Program (CECRA)**.
- The total amount of provincial-federal relief that would be provided is more than **\$900 million**, helping to ensure small businesses are ready to reopen their doors when the emergency measures are lifted.
- The CECRA will provide **forgivable loans** to eligible **commercial property owners** experiencing potential rent shortfalls because their small business tenants have been heavily impacted by the COVID-19 crisis.
- To receive the loan, property owners will be required to **reduce the rental costs of small business** tenants for **April to July 2020** by at least **75 per cent** and commit to a moratorium on evictions.
- The forgivable loans would be disbursed directly to the mortgage lender of the commercial property in question.
- As part of *Ontario's Action Plan: Responding to COVID-19*, the Government has implemented a series of cash flow supports amounting to **\$10 billion** to help support jobs and the economy (see for details) .

- How does the program work?
 - The program has been developed to share the cost between small business tenants and landlords.
 - Small business tenants and landlords would each be asked to pay **25 per cent of the before profit costs** and the provincial and federal government would cost **share the remaining 50 per cent**.
 - The **loans will be forgiven** if the mortgaged property owner agrees to reduce the eligible small business tenants' rent by at least 75 per cent for the three corresponding months under a rent forgiveness agreement, which will include a term not to evict the tenant while the agreement is in place.
 - For example, a monthly rent for a small business is \$10,000. In this example, assume the landlord doesn't make a profit. The landlord forgoes \$2,500 (25 per cent of rent). The small business would be responsible for paying \$2,500 (25 per cent of rent). The government would cover the remaining \$5,000, with \$3,750 from the federal government (37.5 per cent of rent) and \$1,250 (12.5 per cent of rent) from the provincial government.
- How long would a commercial property owner have to apply for OCECRA?
 - The CECRA for small businesses is administered by the CMHC and will be available until **August 31, 2020**. Support will be retroactive to April 1, covering April, May, June and July 2020.
- What are the eligibility requirements for small businesses?
 - An eligible small business tenant is one that:
 - Pays monthly **rent not exceeding \$50,000** in gross rent payments; and is,
 - A non-essential small business that has temporarily closed, or who is experiencing a 70 per cent drop in pre-COVID-19 revenues.
 - a. There are 2 scenarios by which to calculate the 70% reduction in revenues:

Revision Update: September 22nd, 2020 @
4:30PM

- i. If a small business was operating during April – June 2019, then compare the gross revenues from April, May and June of 2020 to the revenues of April, May and June of 2019.
 - ii. If the small business was not operating during April – June 2019, then compare the average gross revenues from April, May and June of 2020 to the average gross revenues for January and February 2020.
 - Generate no more than **\$20 million** in gross annual revenues, calculated on a consolidated basis (at the ultimate parent level) **
 - Not-for-profit organizations and charitable entities would also be considered for the program.
 - Are there any eligibility requirements for commercial property owners?
 - The OCECRA would apply to commercial properties with small business tenants.
 - Commercial properties with a residential component, and residential mixed-use properties with a 30 per cent commercial component, would be equally eligible for support with respect to their commercial tenants.
 - If a property owner does not have a mortgage secured by a commercial rental property, the property owner should contact Canada Mortgage and Housing Corporation (CMHC) to discuss program options, which may include applying funds against other forms of debt facilities or fixed cost payment obligations (e.g. utilities).

August 17th Update

- The Canada Emergency Wage Subsidy (CEWS) has supported more than **3 million Canadians** since the start of the COVID-19 pandemic, providing support to businesses so they can keep their workers, including furloughed workers, on the payroll.
- The Federal government has announced that the government proposes to **extend the current treatment of furloughed employees under the CEWS program by 4 weeks – from August 30 to September 26.**
- This would mean that employers who qualify for the CEWS would be able to continue to claim up to a maximum benefit of \$847 per week to support remuneration for each of their furloughed workers.
- Further details about the calculation of CEWS for furloughed workers for remaining periods of the program will be announced in the coming weeks.

August 17th Update

- To ensure that Canadian workers and businesses are in a better position as our economy safely re-opens, the Government of Canada has recently implemented **changes to the CEWS** that broaden the reach of the program and provide more targeted support.
- The Canada Revenue Agency has **opened applications for Period 5** – the first period of the enhanced CEWS program (as of August 17th).
- The Canada Revenue Agency's updated [CEWS calculator](#) can help small and large employers alike, by guiding them through a step-by-step process to prepare their applications and giving them a preview of the subsidy they may qualify for, based on the information they enter.
- Eligible employers can apply for period 5 of the CEWS through [My Business Account](#) or through the [CRA's web form application](#).
- The CEWS has provided **\$26.58B** in subsidies to more than **275,000 employers**, supporting millions of workers.

Revision Update: September 22nd, 2020 @
4:30PM

- Increased eligibility, meaning that all eligible employers who've experienced a revenue drop can now qualify for a base subsidy. The subsidy amount is based on the revenue drop.
- Employers who are especially hard-hit can qualify for a top-up of up to 25%.
- Provide certainty for employers that have already made business decisions for July and August, by ensuring they will not receive a subsidy rate lower than they would have under the previous rules.

July 17th Update

- The Federal government has **announced changes** to the CEWS that would broaden the reach of the program and provide better targeted support so that more workers can return to their jobs quickly as the economy restarts.

The changes include:

- Allow the extension of the CEWS until **December 19, 2020**, including redesigned program details until November 21, 2020.
- Make the subsidy accessible to a **broader range of employers by including employers with a revenue decline of less than 30 per cent** and providing a gradually decreasing base subsidy to all qualifying employers.
 - This would help many struggling employers with less than a 30-per-cent revenue loss get support to keep and bring back workers, while also ensuring those who have previously benefited could still qualify, even if their revenues recover and no longer meet the 30 per cent revenue decline threshold.
- Introduce a **top-up subsidy** of up to an additional 25 per cent for employers that have been most adversely affected by the pandemic.
 - This would be particularly helpful to employers in industries that are recovering more slowly.
- Provide certainty to employers that have already made business decisions for July and August by ensuring they

would not receive a subsidy rate lower than they would have had under the previous rules.

 - Registered Canadian Amateur Athletic Associations;
 - Registered Journalism Organizations; and
 - Non-public colleges and schools, including institutions that offer specialized services, such as arts schools, driving schools, language schools or flight schools.
- The Government also intends to **propose legislative amendments** to ensure that the CEWS continues to meet its objectives. These proposed amendments would:
 - Provide flexibility for employers of existing employees who were not regularly employed in early 2020, such as seasonal employees;

Revision Update: September 22nd, 2020 @

- xvi. Canadians can receive the CEWS wage subsidy or the Canada Emergency Response Benefit (CERB) — not both.
- xvii. **100% refund** for certain employer-paid contributions to Employment Insurance, the Canada Pension Plan, the Quebec Pension Plan, and the Quebec Parental Insurance Plan.
- xviii. This refund covers 100% of employer-paid contributions for eligible employees for each week throughout which those employees are on leave with pay and for which the employer is eligible to claim the CEWS for those employees.
- xix. Employers would be allowed to calculate their revenues under the accrual method or the cash method, but not a combination of both. Employers would select an accounting method when first applying for the CEWS and would be required to use that method for the entire duration of the program.
- xx. For **registered charities and non-profit organizations**, the calculation will include most forms of revenue, excluding revenues from non-arm's length persons. These organizations would be allowed to choose whether or not to include revenue from government sources as part of the calculation. Once chosen, the

same approach would have to apply throughout the program period.

- In order to address the realities faced by the **not-for-profit sector, high growth companies and new businesses**, the Government has allowed for additional flexibility:
 - To measure their revenue loss, employers have the flexibility to compare their 2020 revenue to that of the same month of 2019, or to an average of their revenue earned in applicable months.
 - In recognition that the time between when revenue is earned and when it is paid could be highly variable in certain sectors of the economy, employers be allowed to measure revenues either on the basis of accrual accounting (as they are earned) or cash accounting (as they are received).
- All employers would be expected to at least make best efforts to top up salaries to 100% of the maximum wages covered.
- Those organizations that do not qualify for the Canada Emergency Wage Subsidy may continue to qualify for the previously announced wage subsidy of 10 per cent of remuneration paid from March 18 to before June 20, up to a maximum subsidy of \$1,375 per employee and \$25,000 per employer (see [April 27th \(Update\) - 10% Wage Subsidy: Effective Immediately](#) for more details).
- For employers that are eligible for both the CEWS and the 10 per cent wage subsidy, any benefit from the 10 per cent wage subsidy for remuneration paid in a specific period would generally reduce the amount available to be claimed under the CEWS in that same period.

70. August 20th - Government of Canada announces plan to help support Canadians through the next phase of the recovery

- The Federal government has announced **changes to the Employment Insurance (EI) program and new income support benefits** that will better support all Canadians.
 - EI will now be available to more Canadians, including those who would not have qualified for EI in the past, adding more than 400,000 people into the program.
 - Those receiving EI will be eligible for a taxable benefit rate of at least \$400 per week, or \$240 per week for extended parental benefits, and regular benefits will be accessible for a minimum duration of 26 weeks.
 - The government will also **freeze the EI insurance premium rates for two years**, so Canadian workers and businesses will not face immediate increases to costs and payroll deductions due to the additional expenses resulting from the pandemic.
- The government also announced that in preparation for this transition and to ensure support continues for Canadians whose employment has been impacted by the pandemic, the **Canada Emergency Response Benefit (CERB)** will be **extended by an additional four weeks to a maximum of 28 weeks**.
 - This means that for the many Canadians expecting to exhaust their CERB benefits at the end of August, they will now be able to access an additional month of support.

- Additionally, to ensure Canadians receive the support they need during these challenging times, the Federal government is proposing **three new benefits**:
 - i. The **Canada Recovery Benefit (CRB)** will provide \$400 per week for up to 26 weeks, to workers who are self-employed or are not eligible for EI and who still require income support and who are available and looking for work. This benefit will support Canadians whose income has dropped or not returned due to COVID-19.
 - ii. The **Canada Recovery Sickness Benefit (CRSB)** will provide \$500 per week for up to two weeks, for workers who are sick or must self-isolate for reasons related to COVID-19.
 - iii. The **Canada Recovery Caregiving Benefit (CRCB)** will provide \$500 per week for up to 26 weeks per household, for eligible Canadians unable to work because they must care for:
 - a child under age 12 due to the closures of schools or daycares because of COVID-19.
 - a family member with a disability or a dependent because their day program or care facility is closed due to COVID-19.
 - a child, a family member with a disability, or a dependent who is not attending school, daycare, or other care facilities under the advice of a medical professional due to being at high-risk if they contract COVID-19.
- The Government intends to introduce new legislation to support the implementation of the new benefits.
