

## **Manufacturing Matters**

**Thursday October 1, 2026**

**RBC Place London**

### **Sponsorship Opportunities**

The London Economic Development Corporation (LEDC) and the London Region Manufacturing Council (LRMC) are proud to present the 2026 Manufacturing Matters Conference—a must-attend in-person event for manufacturers across the London region. Taking place on Thursday, October 1, 2026, this event will feature expert insights from industry leaders, an engaging keynote speaker, and peer-to-peer networking focused on real-world strategies, innovation, and workforce solutions.

Sponsorship plays a vital role in making this event possible and positions your company as a key supporter of the region's manufacturing sector. It's a practical opportunity to showcase your brand to an engaged audience of industry professionals, gain visibility, and connect directly with decision-makers and business leaders driving growth in the sector.
